About Us

Appleton Marine is a leading manufacturer of custom cranes, winches and specialty equipment for worldwide applications. Appleton Marine provides comprehensive product development and manufacturing services to leading companies in the marine, defense and mining industries. At Appleton, you will work with knowledgeable employees serving a global environment providing the highest quality equipment for some of the most demanding applications. We provide quality machinery and services to such customers as General Dynamics, Lockheed, Northrop Grumman, Fluor, Shell, Chevron, Exxon Mobil, the USCG and the US Navy. Together we will transform our customer's cutting edge ideas into market leading products through product design, design development, testing, assembly and installation in some of the most demanding environments. At Appleton, we take pride in our employees and our high quality products and services. Please consider joining our team today and experience the difference that a small company like Appleton Marine has to offer.

Responsibilities

1. Ability to read blueprints and electric schematics.
2. Assemble and install electric components, harnesses and cable trays.
3. Wire cranes, winches and power units per drawing requirements.
4. Work with electrical sub-contractors to ensure that equipment are constructed correctly.
5. Respond to service requests and troubleshoot and repair electrical systems.
6. Work well with others in assembling heavy equipment.
7. Troubleshoot electrical control and monitoring systems, during testing and installation.
8. Provide support to customers and to our field engineering staff while on start-ups/repairs.
9. Be aware of changes that occur on projects and document them in our As-Built process.

Qualifications

All candidates must have legal authorization to permanently live and work in the United States without visa or employer sponsorship.

Education/Experience:

- Possess an associate's degree in Electro-Mechanical Technology, or Electrical Engineering Technology or equal.
- 2+ years experience as an Electrical Technician preferred.

Skills/Knowledge/Abilities:

- The want and ability to learn our equipment and our system
- Basic knowledge of PLCs desirable.
- Basic knowledge of electrical motors and power distribution.
- Basic electrical troubleshooting knowledge.
- Proficient with manual and power tools.
- Familiar with code requirements and ability to follow safety regulations.
- Good communication skills.

At Appleton Marine we realize that our employees are the key to our continued success. That is why we provide a stimulating environment that fosters sharing of ideas, use of the latest technology and teamwork. We support our employees as they take on new challenges, celebrate their successes and believe in sharing our profits. In addition to offering a competitive salary, ESOP ownership and bonus opportunities, Appleton offers an excellent benefits package including tuition reimbursement and medical insurance.
