Location: Appleton, WI

About Us

Appleton Marine is a leading manufacturer of custom cranes, winches, and specialty equipment for worldwide applications. Appleton Marine provides comprehensive product development and manufacturing services to leading companies in the marine, defense, and mining industries. At Appleton, you will work with knowledgeable employees serving a global environment providing the highest quality equipment for some of the most demanding applications. We provide quality machinery and services to such customers as General Dynamics, Lockheed, Northrop Grumman, Fluor, Shell, Chevron, Exxon Mobil, and the U.S. Navy. Together we will transform our customer's cutting edge ideas into market leading products through product design, design development, testing, assembly, and installation in some of the most demanding environments. At Appleton, we take pride in our employees and our high quality products and services. Please consider joining our team today and experience the difference that a small company like Appleton Marine has to offer.

Responsibilities

1. Design custom equipment to customer's specifications by analyzing the performance and feasibility of alternative concepts.
2. Develop the design by selecting components, developing fabrications, and coordinating with subcontractors.
3. Develop mechanical components and system assemblies that satisfy the customer's requirements (drafting System = AutoCAD & Solidworks).
4. Directly oversee the equipment assembly and testing demonstration at our crane or winch facility.
5. Support the development and assembly of equipment by providing documentation and assistance to ensure high quality products are built in a timely manner.
6. Participate in design reviews for customer projects to ensure quality design output.
7. Develop project documentation in accordance with customer requirements to ensure project information is properly organized and archived.
8. Provide technical support to ensure production start-up issues are resolved in a timely manner.
9. Produce an acceptable quantity of work in a timely manner.

10. Support Field Service requests and be willing to travel to jobsites both domestic and abroad.

Qualifications

All candidates must have legal authorization to permanently live and work in the United States without visa or employer sponsorship.

Education/Experience:

- Possess a minimum of a Bachelor degree in Mechanical Engineering or Mechanical Engineering Technology.

Skills/Knowledge/Abilities:

- Possess strong analytical skills and basic knowledge of mechanical design.
- Ability to work in a team environment.
- Possess good verbal and written communication skills.
- Hands-on ability is a big plus.

At Appleton Marine we realize that our employees are the key to our continued success. That is why we provide a stimulating environment that fosters sharing of ideas, use of the latest technology and teamwork. We support our employees as they take on new challenges, celebrate their successes and believe in sharing our profits. In addition to offering a competitive salary, ESOP ownership, and bonus opportunities, Appleton offers an excellent benefits package including tuition reimbursement and medical insurance.
